WINTER 2021 VIRTUAL EVENT

16 Mar 2021

CONNECTING LEADERS IN AI, DATA, BUSINESS & TECHNOLOGY

AI IN A WORD

WE NEED AI & DATA NOW, MORE THAN EVER

During these difficult times, AI, machine learning & data are helping the world in its fight against the coronavirus pandemic.

In researching the virus and developing vaccines and cures, in delivering healthcare services, and in analysis and decision making by governments and public authorities - AI, machine learning & data are being used now more than ever.

Future of AI brings together the companies developing the latest AI, machine learning & data solutions that enable businesses and organisations to benefit in so many ways, save costs, and continue to serve their customers globally while facing various challenges.

Our events present these practical solutions, connect decision makers and enable the creation of new business opportunities.

We invite you to join us at our next virtual event and take your business to the next level!

FUTURE OF AI

AI IS ALREADY HERE

People & Computers

AI

IN 2018-2019 WE HELD OUR FIRST 2 ANNUAL EDITIONS IN TEL AVIV

We were sold out and hosted 2,000+ AI & data professionals from Israel and around the world

AI IN 2019 WE HELD OUR FIRST EDITION IN BERLIN

We brought together 1,000+ AI & tech leaders from Berlin and the rest of Europe!

A Conference on AI & Data, Featuring Technical & Business Talks · Virtual Event · 6th edition · 16 Mar 2021 · www.FutureofAI.com
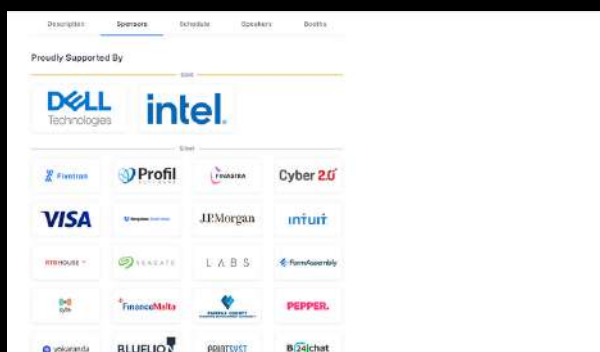

AI

IN 2020 WE HELD OUR 4TH MAJOR EVENT, IN VIRTUAL MODE

When COVID hit, we transformed our in-person events to virtual ones, and the results were great!
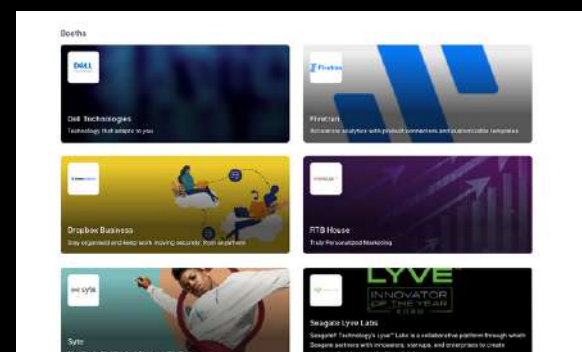

AI

2021 EVENT PLAN

Due to COVID we will continue to hold virtual events until further notice. We are planning to hold our annual in-person event once conditions will allow, with hopes for Q3 / Q4.

- Virtual event
- 500 attendees (estimate)

SUMMER 2021

21 July 2021
10:00 - 17:00

- Virtual event
- 500 attendees (estimate)

AI WINTER 2021 VIRTUAL EVENT PROGRAM THEMES

WHAT'S NEXT IN AI & DATA?

The coronavirus pandemic has accelerated the digital transformation of multiple industries. AI & data have become more widespread than ever more.

In this upcoming edition we will cover both technical and practical technologies and solutions that are helping the world during the pandemic and beyond.

Some sessions will dive deep into AI & machine learning while others will speak to our less technical business audience interested in practical solutions.

MACHINE LEARNING
